

Particulate Hard Case Filter P3 - 2 Pack

SKU: HCFILTERP3-2PK

Product Features & Benefits

- **Enhanced Protection:** The solid design of the hard case provides superior protection by reducing the risk of premature clogging. This ensures a longer lifespan and optimal performance.
- **Decontamination Support:** The protective casing enables efficient decontamination practices. This feature helps maintain a clean and sanitized environment, ensuring the safety of users and minimising contamination risks.
- **Ergonomic Design:** R793-P3R offers a low profile and well-balanced design, allowing for maximum comfort and ease of use. It ensures a snug fit while maintaining optimal breathing capacity.
- **Unmatched Safety:** The hard case effectively deflects sparks and splashes of liquid. Whether in hazardous work environments or situations where unexpected accidents may occur, R793-P3R provides an additional layer of protection for peace of mind.
- **Convenient Self-Fit Check:** The hard case simplifies the process of performing a quick self-fit check. This feature ensures that users can easily verify the proper fit and ensure optimal protection without any hassle or complexity.
- **Feather-Light Comfort:** Incredibly lightweight, R793-P3R prioritises comfort without compromising on safety. The lightweight design minimises strain and fatigue during extended use, allowing users to focus on their tasks with maximum comfort and freedom of movement.
- **Secure Locking Mechanism:** A reliable bayonet connector ensures a secure locking mechanism. This guarantees a tight and dependable seal, preventing any unwanted leakage or infiltration, and allowing users to work confidently in various environments.
- Certified to AS/NZS 1716:2012

Applications

Common Hazards: For protection when working with a range of particles produced from grinding, cutting, drilling and sanding.
