

Speciality Safety Solutions

Safety Xpress is Australia's premier safety equipment supplier. We specialise in bollards, wheel stops, speed humps, tactiles, convex mirrors, barriers, stair nosings, hand rails, bike racks and bike hoops, signs, floor mats, and many other safety products. As the name suggests, 'Safety' is the first priority at Safety Xpress. We deliver all over Australia, quick, fast and hassle free, thus the word Xpress in our name.

We thrive to make workplaces, construction sites, business premises and homes safe for all people. Whether you want safety equipment for your workforce or for your customers, We offer quality safety products at affordable prices, if you are looking for any kind of safety product, you can certainly find it with us.

The most convenient way to buy from us is through our website, just browse and choose from our wide range of safety products online. A number of prestigious schools, councils and companies from various industries like construction, warehousing, mining, transport, retail, real estate property management and others trust us for their safety needs.

If you have a requirement for safety equipments, contact us today or browse through our website to check out our product range. We also offer installation services in Melbourne Metro, Sydney Metro, Brisbane and the Gold Coast. Speak to us today regarding your next project and our helpful sales team are more than happy to offer you the best safety solution.

Aussie Safety

[www.ultimateaussiesafety.com.au](http://www.ultimateaussiesafety.com.au)

We manufacture and supply a range of Australian safety solutions.  
Our aim is to create a safer Australia through Australian made products.

All our products are made Aussie tough and designed to handle anything the Aussie climate, or the Aussie public can throw at them. Manufactured using ultra UV-stabilised materials, Ultimate Aussie Safety equipment won't fade, wear or crack, and they look great too.

All products are manufactured to meet or exceed all applicable Australian/New Zealand safety and quality standards, with most carrying a five-year manufacturer's warranty.

## Ultimate<sup>®</sup> Tactile

Australian  
Standard

## 100 Tonne Heavy Duty Ultimate Speed Hump

Australian Standard  
AS 2890.1 : 2004

- Modular, build to required length
- Strong honeycomb base design
- Light weight, no noise
- UV stabilised
- Built-in reflectors
- Slip resistant cross hatch surface
- 2 x recessed fixing points
- Built-in cable channel
- 100 Tonne load capacity
- 5 Year structural warranty
- Australian Made AS2890.1: 2004

Built in Reflectors  
Fixing Points

## Ultimate Speed Hump

### Mid Sections

250mm x 350mm x 50mm

Australian Standard  
AS 2890.1 : 2004

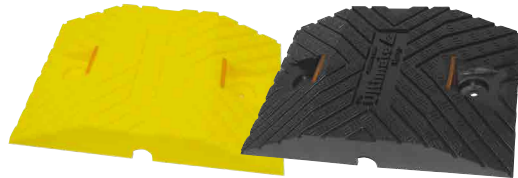

- Each Mid Section measure 250mm long,
- Length 250mm. eg. 4 pcs of Mid Sections = 1 Metre
- We supply your order in alternating yellow and black sections
- Made from UV stabilised composite plastic
- Strong honeycomb construction
- Weight load capacity is a huge 100 tonne at a speed of 30km/hr or less.
- Cable channel measuring W22mm x H20mm under each mid section
- Easy installation, alternatively we provide installation service upon request

STABILISED

STUDSSSP	Stainless Steel with Black Polyurethane Insert	3.11	3.45

## Tactile Indicators - Single Studs

### Tactile Indicator Single Studs TGS1 316 Stainless Steel / Brass

- Approx 400 tactile studs = 1 sqm
- 35mm Dia. per stud, stud height 4.5mm, shaft height 14mm
- P5/R12 slip rating. AS/NZS 1428.4:2009
- Installed using an 8mm drill bit (no glue required)
- Suitable for indoor and outdoor use

SKU	Material	Colour	Luminosity (Wet)	Luminosity (Dry)
STUDSSCO	Stainless Steel	Silver	50.15	58.73
STUDSSCOB	Stainless Steel	Black	7.20	7.53
STUDBRCO	Brass	Gold	54.65	60.12

## Peel and Stick Tactile Indicator Single Studs TGSi Stainless Steel Concentric OR Brass with Carborundum insert

- 3M self adhesive sticky back
- Available in 316 Grade Stainless Steel Or Brass
- Approx 400 tactile studs = 1 sqm
- P5 slip rating
- AS/NZS 1428.4:2009
- 35mm Dia. per stud, stud height 5mm
- Stick them down using our Flat Back Tactile Template to ensure the tactile studs are positioned correctly and comply to regulation

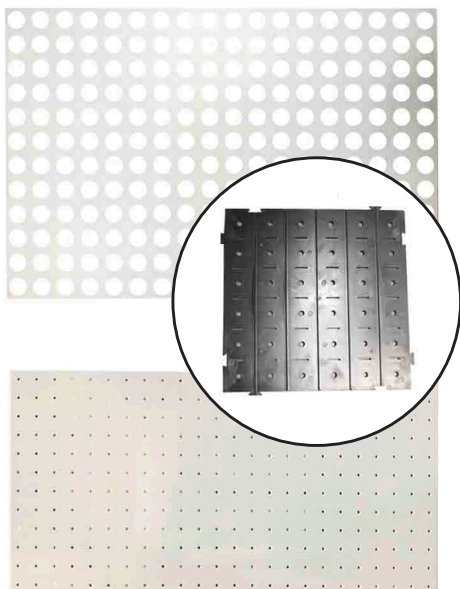

SKU	Colour	Luminosity (Wet)	Luminosity (Dry)
STUDSSCO	Silver Stainless Steel	50.15	58.73
STUDBRCO	Brass with Black Carborundum Insert	4.59	5.42

## Tactile Indicator Single Studs TGSi Stainless Steel - Flat Back

- Stainless concentric pattern is 316 Grade Stainless Steel
- Approx 400 tactile studs = 1 sqm
- P5 Slip Rating, comply to AS/NZS 1428.4:2009
- 35mm Dia. per stud, stud height 5mm
- Stick them down using our Flat Back Tactile Template to ensure the tactile studs are positioned correctly and comply to regulation

SKU	Colour	Luminosity (Wet)	Luminosity (Dry)
STUDSSCOFB	Silver Stainless Steel	50.15	58.73
STUDSSCAFB	Stainless Steel with Black Carborundum Insert	3.81	4.62

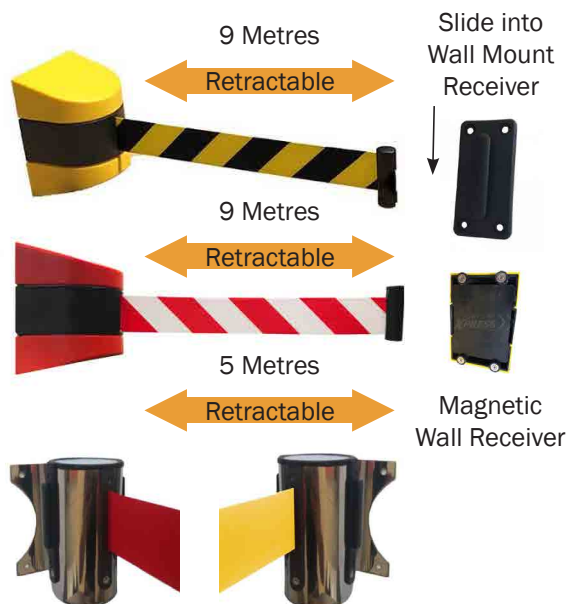

## Installation Template For Tactile Indicator Single Studs

- 3 types available - jigsaw template, template for single studs flat back, and template for single studs with shaft
- Tactile template is used to drill / position, and install tactile studs
- Various sizes and different template thickness to choose from
- The template makes the job even easier by guiding you so that you can keep the tactiles spaced at the regulation distance apart, and in clearly defined lines to Australian regulations

SKU	Material	Suitable For	Size	Thickness
TACJIGTEM	Polypropylene	35mm single tactile studs	300mm x 300mm Jig Saw	2mm
FBTACTEM	Polypropylene	Flat Back OR Sticky Back 35mm single tactile studs	600mm x 900mm	2mm
TSTUDSTEN	Polypropylene	35mm single tactile studs	600mm 1200mm	5mm

## Barriers

## Wall Mount Retractable Barriers

- Compact, discreet, does not take up space or storage room
- Used to zone off hazardous areas in the workplace or restrict entry to staff only areas, especially suitable for narrow walkways or tight spaces
- Wall mount - belt slides into receiver plate
- Magnetic type - magnetic receiver holds belt in place
- Yellow / Black or Red / White acts as a visual caution for pedestrians
- Easy to install, fixings included

SKU	Type	Length	Belt Colour	Material
WMBAR9YB	Wall Mount	9 Metres	Yellow/Black	ABS plastic housing with nylon belt
WMBAR9RW		9 Metres	Red/White	
WMBARSS5MR	Wall Mount	5 Metres	Red	Stainless Steel with nylon belt
WMBARSS5MY		5 Metres	Yellow	
MAGWMBAR9YB	Magnetic	9 Metres	Yellow/Black	ABS plastic housing with nylon belt, magnetic receiver
MAGWMBAR9RW		9 Metres	Red/White	

## Barriers

## Cone Top Retractable Barriers

- Cone top retractable can sit directly on traffic cones, no mounting required. eg. link 2 units together to form a pedestrian barrier
- Cone top retractable barriers can also be wall mounted using the Wall Mount Bracket and Receiver Plate (sold separately)
- Yellow / Black or Red / White acts as a visual caution for pedestrians
- Easy to install, fixings included

SKU	Type	Length	Colour	Material
9MCTRTAPY	Cone Top Retractable	9 Metres	Yellow/Black	ABS plastic housing with nylon belt
9MCTRTAPR	Cone Top Retractable	9 Metres	Red/White	ABS plastic housing with nylon belt
WMOUNTCTOP	Wall Bracket	N/A	Black	Polypropylene (PP)
WMRECEXBAR	Receiver Plate	N/A	Black	Polypropylene (PP)

## Barriers

## Portable Plastic Fence Barrier

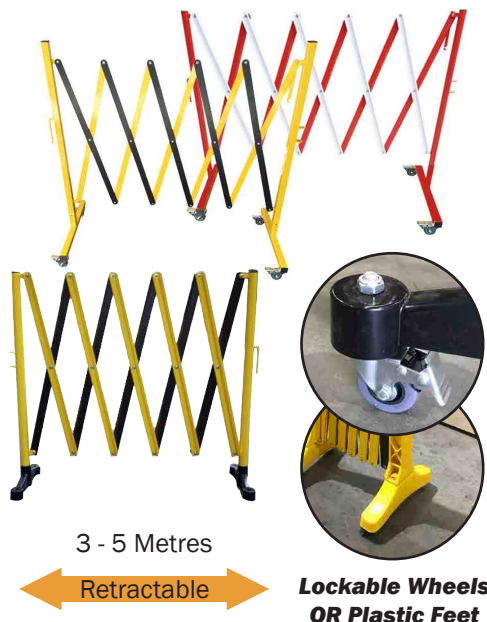

- Single barriers can be linked together to form a variety of configurations.
- Red and white reflective strips for high visibility
- Heavy duty rubber base
- Suitable for outdoor use, all weather proof
- Commonly used on construction sites, to guide pedestrian foot traffic and fence off potential hazards

SKU	Colour	Length	Height	Material
PORTBAR110-Y	Yellow	1100mm	945mm	Fence: High Density Polyethylene Base: Rubber
PORTBAR110-O	Orange	1100mm	945mm	With night reflective red-white panel
Component			Weight	
Rubber Base			22kg	
Plastic Panel			4kg	

## Expanding Barriers

### 3 - 5 Metres

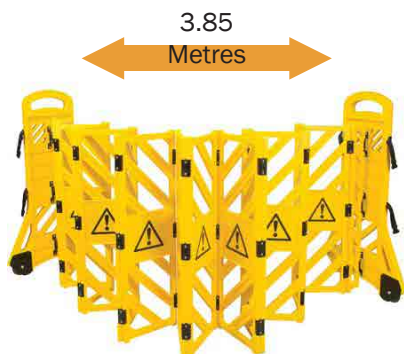

- Two or three expanding barriers can fit together to form longer length
- Available in metal or plastic, with plastic feet or self locking wheels
- Light weight, easy to transport and store
- Bright colours act as a visual warning to vehicles and pedestrians
- Easy self assembly

SKU	Length	Height	Material	Colour	Feet
EXPBAR3MYB	3 Metres	980mm	Steel and Aluminium Powder Coated	Yellow/Black	Plastic Feet
EXPBAR3MRW	3 Metres	980mm		Red/White	Plastic Feet
WMBARSS5MR	3 Metres	1000mm		Yellow/Black	Locking Wheels
WMBARSS5MY	3 Metres	1000mm		Red/White	Locking Wheels
EXPBAR5MYB	5 Metres	1000mm		Red/White	Locking Wheels
LWEXPBAR3YB	3 Metres	980mm	Plastic	Yellow/Black	Locking Wheels

## Portable Mobile Expanding Safety Barrier

- E-X-P-A-N-D-S to 3.85 Metres Long
- Portable, can form a variety of configurations as required to zone off dangerous / no access areas
- Accordion style panels, folds to any configuration
- Can fold and protect machinery / hazards
- Especially suitable for warehouses, factories, and industrial settings

SKU	Length	Height	Material	Colour	Feet
EXPGATE	3.85 Metres	1000mm	Plastic	Yellow/Black	Wheels

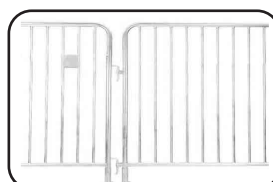

## Crowd Control Barrier

- Crowd control barrier is mainly used to temporarily zone off areas at public events, work sites or in the workplace
- Easily installed by linking the panels together. Feet can be removed for simple transport and storage
- Can be secured in place if required using a steel spike or permanent fixing (sold separately)

SKU	Length	Height	Material	Colour	Feet
CROWD22	3.85 Metres	1000mm	Galvanised Steel	Silver	Wheels

## Barriers

### Portable Mobile Safety Barrier 4 Panel

- Plastic wheels and carry handle, easy to move around.
- Form any configuration, build to required length, can add more panels
- Foldable, compact, easy storage
- Used to fence off potential hazards

SKU	Colour	Length	Height	Material
SAFBAR4PAN650X1000	Yellow	Each Panel 650mm Total Length: 2600mm	1000mm	High Density Polyethylene

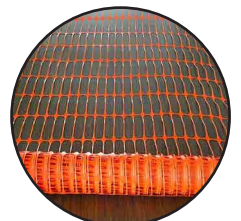

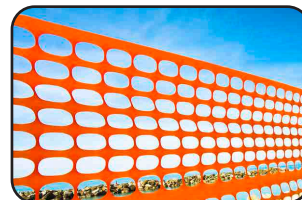

## Barriers

### Mesh Barrier - 50 Metres Roll

- Barrier Mesh fencing used to block off work zones and dangerous hazards, mainly used in construction settings
- Can be easily cut and tied to bollard or structures
- Designed to be reused, can be taken down, rolled up and re-erected from job to job
- Hard wearing, all weather proof

SKU	Colour	Length	Height	Weight	Material
BARMESH50-8KG	Orange	50 Metres Roll	1000mm	8kg	LDPE Plastic

## Barriers

### Safety Bunting - 30 Metres Roll

- Hi-Vis orange barricade bunting flags can be used on its own or in conjunction with T-Top Bollards to temporarily zone off work zones and potential hazards
- Can be taken down and re-used multiple times

SKU	Length	Triangle Size	Material	Colour
BUNTDAY30	30 Metres	18cm x 23cm x 23cm	Nylon Rope with UV Stabilised Plastic Flags	Bright Orange

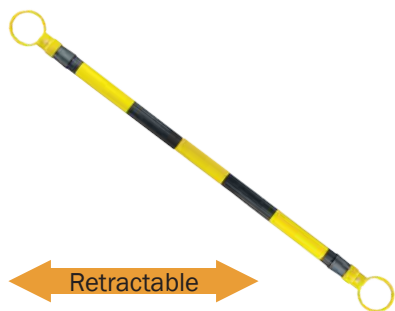

## Traffic Cones

- Indicate work zone and divert traffic
- Light and Heavy Duty types available
- Weather proof: rain, hail or shine, won't fade or fly away under high wind
- Class 1 Reflective band, suitable for highways during the day / night

SKU	Type	Colour	Height	Material
CONE450R	Traffic Cone	Orange with Class 1 White Reflective Band	450mm	Cone: PVC Base: Rubber
CONE710R			710mm	
CONE1M			1000mm	Cone: PE Base: Rubber
POPCONE	Pop Up Traffic Cone with LED	Orange with Silver Reflective band	400mm	Cone: Fabric Base: Plastic
TRAFCONERING	Cone Ring	Red	-	Plastic

## Cone Bar - Retractable

- Yellow / Black colour acts as a visual warning to pedestrians
- Retractable, adjust to length required between 1.3 - 2.3 Metres
- Compatible with all Safety Xpress Traffic Cones, can form a variety of configurations to fence off a no-go zone

SKU	Length	Ring Size	Material	Colour
PLCHA825	1.3 - 2.3 Metres Retractable	40mm	ABS Plastic	Yellow / Black

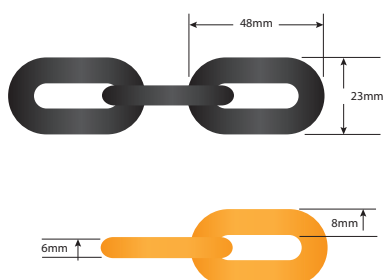

## Plastic Safety Chain 25 Metre Roll

- Yellow / Black colour acts as a visual warning to pedestrians
- Plastic chain can be used in conjunction with T-Top Bollards / Fixed bollards OR can use on traffic cones with chain rings installed.
- Easily cut, easily fit onto other fixtures, can be taken down and re-used

SKU	Length	Ring Size	Material	Colour
PLCHA825	25 Metres	8mm x 6mm	Plastic	Yellow / Black

## Loading Dock Boom Gate

- When loading or unloading is not in progress the Loading Dock Boom Gate is the perfect affordable solution to closing off a loading dock and providing a safety barrier for employees
- When access is required the boom can simply be released and raised into a vertical position easily with the gas strut
- When loading / unloading is completed, the boom can be lowered and locked into position again to form a safety barrier.
- Available in Left or Right opening options

SKU	Type	Length	Height	Material
BGATELDLEFT	Left	3m	1100mm	Galvanised Steel Powder Coated Safety Yellow
BGATELDRIGHT	Right	(2.6m between posts)		

## Height Clearance Bar

- Allow safe passage of vehicles
- Commonly used in retail centres, airports, residential and public car parks, warehouses etc.
- Each Height Clearance Bar comes with 2 fitted eyelets, 2 Metres of chain (1m for each end) and 4 shackles
- Custom clearance height stickers also included - Red / White Reflective Sticker (customer to specify height on sticker)

SKU	Length	Colour	Material
HCBAR2M	2 Metres	Yellow/Black	Galvanised Steel Powder coated Safety
HCBAR3M	3 Metres	Red/White	
HCBAR4M	4 Metres	Black	
HCBAR5M	5 Metres	Black	

## Mezzanine Pallet Loading Gate

Provides safe and controlled access whilst loading pallets onto elevated mezzanine floors using a forklift or other lifting device.

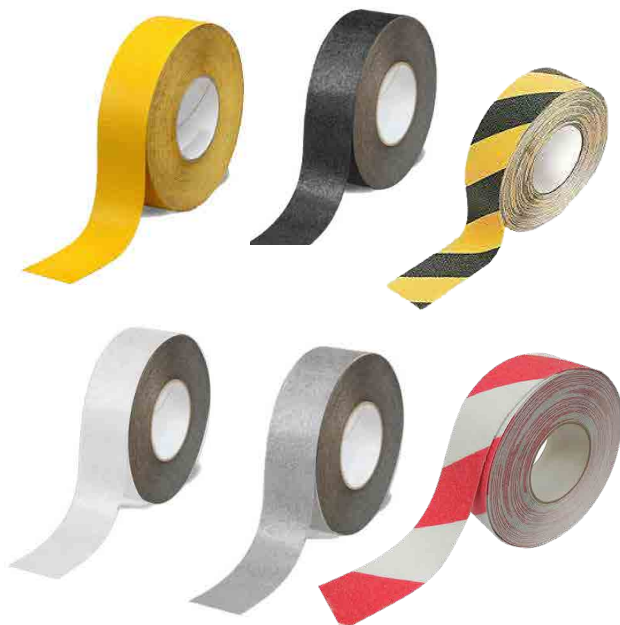

- The pallet loading gate protects the fall edge during mezzanine loading operations ensuring the safety of workmen whilst in the danger area.
- Pallet Loading Gate does not provide fall protection on two sides
- Should side protection be required, additional handrail modules will be required and installed separately to the mezzanine gate
- High level of safety for workmen in specific danger area
- High strength design, yet lightweight, ensures ease of operation
- Modular, kit form assembly for rapid and easy installation
- Safety Yellow finish for optimum visibility
- Gas strut lift assist with locking pin

SKU	Mezz Gate Size	Pallet Size	Material
MEZPALLG	2400mmW x 1900mmH	1950mmW x 1250mmD x 1450mmH	Galvanised Steel Powder coated Safety Yellow

## Anti-Slip Tapes

### 18 Metre Roll

- Easy to use - simply cut to size, peel off backing and apply
- Suitable for low - medium foot traffic areas
- Available in a range of colours
- P5 Slip Rating
- Complies to AS/NZS 1428.1-2009

SKU	Width	Roll Length	Colour	Slip Rating
ASLIP10Y	50mm	18 Metre Roll	Yellow	P5
ASLIP10B	50mm	18 Metre Roll	Black	P5
ASLIP10YB	50mm	18 Metre Roll	Yellow/Black	P5
ASLIPRW	50mm	18 Metre Roll	Red/White	P5
ASLIPG	50mm	18 Metre Roll	Grey	P5
ASLIPW	50mm	18 Metre Roll	White	P5

## Class 1 Reflective Tapes

### Reflective Tapes

#### Class 1 - 45 Metre Roll OR Sold Per Metre

- Easy to use - simply cut to size, peel off backing and apply
- Enhance visibility during night time or under low light conditions
- Suitable for both indoor / outdoor use, lasts up to 10 years outdoor
- Available in a range of colours
- Complies to AS/NZS 1906.1:1993.

SKU	Width	Length	Colour	SKU	Length
RTAPEC145Y	50mm	45 Metre	Yellow	RTAPEY	1 Metre
REFTC1RED45	50mm	45 Metre	Red	REFTC1RED1	1 Metre
REFTC1W45	50mm	45 Metre	White	RTAPEW	1 Metre
REFTC1YB45	50mm	45 Metre	Yellow/Black	RTAPEYB	1 Metre

## Barrier & Line Marking Tapes

### Barrier Tape

- Commonly used on its own or in conjunction with our T-Top Bollards to temporarily fence off no-go zones and divert pedestrian traffic

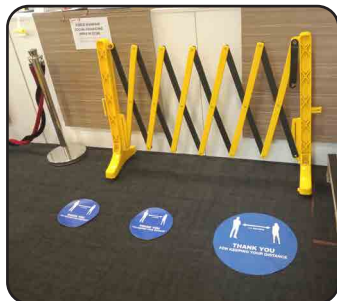

SKU	Width	Length	Colour
BARTAPERW50	50mm	50 Metre Roll	Red / White

### Line Marking Tapes

- Eurocell Masking Tape is the referred option of line markers
- Yellow line marking tape is an alternative to using permanent line marking paint or marking out spray paint, easy to apply and remove

SKU	Width	Length	Colour	Description
LMTAPE4833	33mm	48 Metre Roll	Yellow	Line Marking Tape
MASKTAPE	50mm	50 Metre Roll	White	Eurocell Masking Tape

## Social Distancing Signs & Social Distancing Floor Stickers

- A must have for shops and work places
- Floor stickers help to organise queues while maintain social distancing
- Wall signs are light weight, easy to apply

SKU	Type	Size	Application	Material
SOCDISIN260	Sticker	Dia. 260mm	Indoor	Self Adhesive Vinyl, anti-slip laminate

SOCDISIN450		Dia. 450mm	Indoor	
SOCDISOD450		Dia. 450mm	Outdoor	
SOCDISSIGNS	Sign	450mm x 600mm	Indoor	Corflute
SOCDISSIGNL		600mm x 900mm	Indoor	

## Hand Sanitising Station & Hand Sanitiser

- A must have for shops, retail environments, gyms, customer service areas, clinics, and work places
- Stand with automatic dispenser or stand only
- Hand sanitising stations are light weight, easy to assemble
- 1 Litre and 5 Litres hand sanitiser available for purchase

SKU	Type	Width	Height
SANBOLSTAN	Fixed Height Stand	325mm	1275mm
SANADJSS	Adjustable Stand	300mm	1000mm - 1400mm
SANSTANDAUTO	Automatic Adjustable Height	310mm	1200mm - 1600mm
SANSTANDAUTOBLK	Automatic Fixed Height	310mm	1120mm

SKU	Type	Volume
HANSAN1L	Hand Sanitiser Bottle	1L
HANSAN5L	Hand Sanitiser Pail	5L

## Automatic Touchless Paper Towel Dispenser

- Simply put your hands under the motion activated sensor, paper towel will be dispensed
- Adjustable towel length allows you to select the towel size that is correct for your business
- Drying hands thoroughly with single use, disposable paper towels is the preferred method of hand drying in healthcare
- Will fit a paper towel roll up to 200mm W x 180mm H x 180mm Deep
- Lockable at top to stop paper towel theft
- Battery operated so can be mounted anywhere (4 x batteries included)
- 2 x keys supplied

Batteries Included

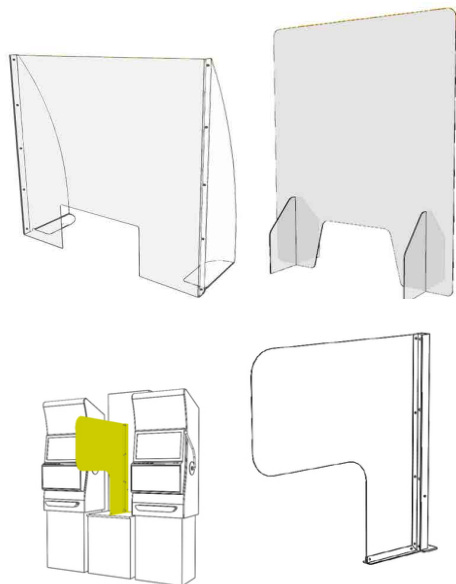

Automatic Sensor

Supplied  
Keyed Alike

SKU	Colour	Width	Height	Depth
PAPERTOWELTF	White	280mm	350mm	210mm (Top) 145mm (Bottom)

## Hygiene Screens

- Covid safe solutions for shops and restaurants, retail, service centers - where face to face contact need to occur in a covid safe way
- Clear transparent screen

SKU	Type	Width	Height	Thickness	Material
HYGSCRFREE	Free Standing Hygiene Screen	790mm	950mm	Screen: 3mm	Screen: Polycarbonate
HYGSCRSW	Hygiene Screen with side wings	900mm	800mm	Feet: 4.5mm	Feet: PETG
HYGSCRSCO	Self Check-Out Partition Screen with Post	Top: 991mm Base: 90mm Post: 50mm	953mm	Screen: 3mm	Screen: Polycarbonate Post: Aluminium Powder coated Matt Black

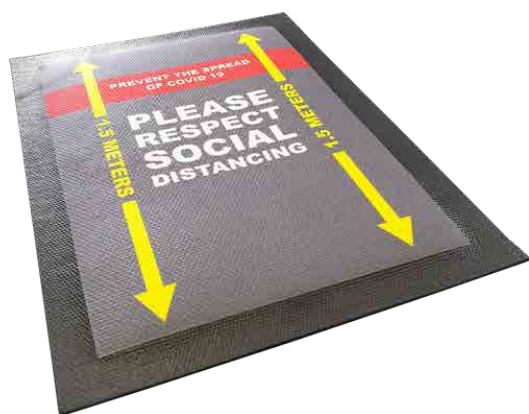

## Restaurant Partitions

- Covid safe dining solutions for restaurant outdoor dining areas
- Custom logo available, please contact us for more details

SKU	Type	Colour	Width	Height	Material
CAFBAR2M	Partition Frame	Black	2030mm	910mm	Aluminium
CAFBAR2MBAN	PVC Banner	Custom	2030mm	910mm	PVC
SDPART	Partition Screen	Clear / Cloudy / Solid Colour Screen Logo optional	2000mm	2000mm	Frame: Galvanised Steel Screen: polypropylene or corflute

## Social Distancing Floor Mat

- A must have for shops and work places
- A toughened Nitrile rubber that will not rip or slip
- Machine washable, printing will not fade
- Hard wearing, suitable for high foot traffic areas
- Custom printed design options available

SKU	Size	Material
SDMAT690	600 x 900mm	Toughened Nitrile Rubber
SDMAT912	900 x 1200mm	
SDMAT915	900 x 1500mm	

## Caution Wet Floor A Frame Safety Sign

- A must have for shops and work places
- Commonly used when cleaning is in progress, displayed when there are spills and water leak which may cause slip to pedestrians
- Bright yellow acts as a visual caution
- Foldable plastic A frame, easily stored away when not in use.
- Lightweight with easy carry handle

SKU	Size	Material
WETFLAFRAME	620mm x 300mm	Polypropylene

## Rolling Step Stool With Retractable Castor Wheels

- Safe solution for adding extra height to reach stock in work places
- Used in factories, retail shops, libraries and offices
- Non-slip rubber base holds firmly to the floor preventing the step from sliding, rolling or tipping.
- Lightweight plastic with matt blue finish.
- 3 x Retractable castor wheels which locks and springs upwards when stepped on

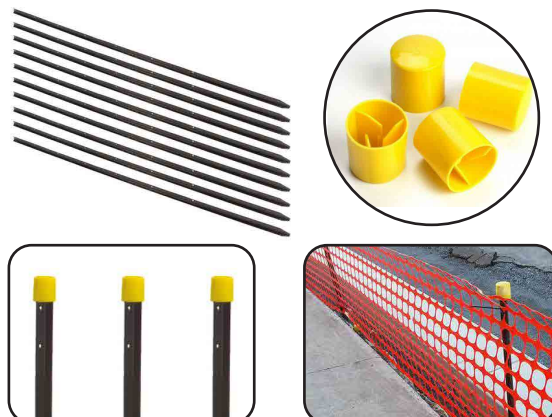

SKU	Height	Dia.	Weight	Load Capacity	Colour	Material
STOOL	410mm	283mm (Top) 433mm (Base)	2.5kg	150kg	Blue	Plastic

## Beacon Light - Solar Powered - Magnetic

- A must have for construction sites to keep workers, drivers, and pedestrians safety from potential hazards
- Magnetic Base, easy put on vehicle, or any metal surface
- Solar powered LED light super bright, visible up to 200 Metres
- 12V. Light Sensitive, will brighten at night or in the dark
- 360 degrees full burst flash coverage
- Weatherproof

SKU	Size	Voltage	Powder	Modes	Colour	Material
BEACONYEL	Dia. 14cm x 14.5cm H	12V	Solar	Flashing	Yellow	Plastic & Magnetic

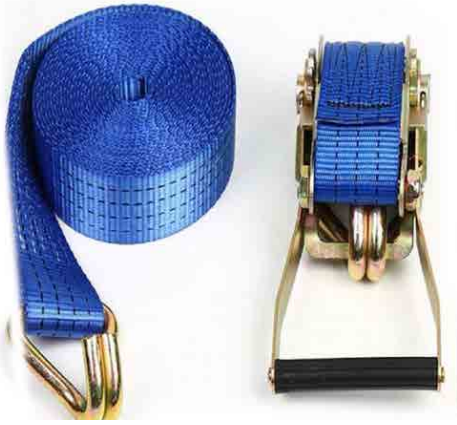

## Star Pickets Fence & Caps

- Pre-drilled holes allow wires to be easily fixed to pickets
- Can also be used with mesh barriers or buntings on construction sites
- Maintain workplace safety by fitting these highly visible Star Picket Caps to fence posts, reo bars and star pickets
- Caps and steel posts sold separately

SKU	Length	Holes	Material	Colour	Pack Qty
STARPICK1650	1650mm	14 Holes Per Picket	Carbon Steel	Black	Pack of 10s
STARPICAP	N/A	N/A	Polyethylene	Yellow	Box of 50s

## Ratchet Strap

- Manufactured from high tenacity polyester webbing, heavy duty hook and keepers stamped with lashing capacity, heavy duty powder coated ratchet buckle

SKU	Length	Width	Load Capacity	Colour	Material
RATCHSTRAPL	3000mm	50mm	50 Tonne	Blue	Polyester webbing, heavy duty hook

## Tape Measure

- Retractable, easy carry with lanyard
- Displays both CM and Inch.
- A must have for all tradies and work places
- Lanyard for easy carrying and storage
- Metal buckles on side - can be buckled onto belt

SKU	Width	Length	Material
TAPEM75	22mm	7.5 Metres	Rule: Steel Casing: Plastic

## LED Traffic Batons

- A must have when diverting traffic at work places
- Visible 200 metres away in darkness
- 3 modes: Flashing, Constant, and Off
- 10,000 hours lifespan, batteries are not included

SKU	Size	Batteries	Modes	Material
BATLED30	320mm L x 35mm dia	3 x AA Batteries	Flash, Constant, Off Front Torch Light - White Noise: Safety Siren	ABS and PVC
BATLED50	520mm L x 30mm dia	2 x C Batteries	Flash, Constant, Off	

## Padlock With 4 Keys Keyed Alike

- Suitable for both indoor / outdoor use
- Can be used on bollards, locks, latches, doors etc.

SKU	Size	Keys	Colour	Material
PADLOCK40	40mm	4 x Keys Supplied (keyed alike)	Silver	Steel, non-spring

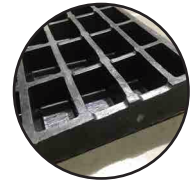

## Ramp

## Door Entrance Ramp

- Entrance Ramps provides a transition between elevated surfaces,
- Textured surface provides great traction and works great with wheelchairs, power chairs, scooters, and pedestrian traffic.
- Durable rubber construction, ribbed backing, built-in cable channels

SKU	Material	Height	Width	Length	Weight	Channels
DERAMP30	Rubber	30mm	300mm	980mm	6kg	N/A
DERAMP70		70mm	700mm	1000mm	20kg	2
DERAMP102		101.6mm	610mm	1070mm	26kg	3

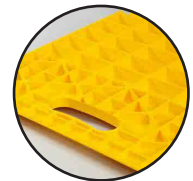

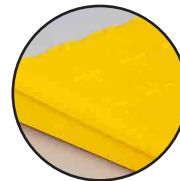

## Ramp

## Kerb Ramp - Portable Light Duty

- Light Duty Portable Kerb Ramp is a very simple and easy way to move trolleys with light loads over kerbs and steps without jostling the cargo or causing strain to the operator.
- Protects cargo while preventing causing strain to the operator.
- Light Duty Portable Kerb Ramp is a very simple and easy way to move trolleys with light loads over kerbs and steps
- No bolting down is required, can be quickly put over kerbs and used.

SKU	Material	Height	Width	Length	Load Capacity
LGTKRAMP	Plastic	101mm	685mm	686mm	150kg

## Ramp

Load Capacity

## Kerb Ramp - Heavy Duty

- Heavy Duty Rubber Kerb ramp is suitable for warehouse and industrial settings or whenever heavy load is required to be transported - providing a smooth transition over concrete kerbs
- Each module can be used separately or joined together to form a longer ramp.
- Made of solid industrial strength rubber, dense webbing structure underneath provides extra support
- Installed using the mounting bolts supplied or can be positioned freestanding
- Fixings for installation included

SKU	Material	Height	Width	Length	Load Capacity	Cable Channels
KERBRAMP	Rubber	135mm	320mm	480mm	20 Tonne	2

## Heavy Duty Rubber Disability Access Ramp

- Designed for wheelchair access, these Entrance Ramps provides a smooth transition between elevated surfaces
- Rubber type can be used as a semi-permanent access feature
- Smooth transition from all 3 sides, can be used for disable wheel chair access / or used as an access ramp eg. for trolley and unloading stock etc
- Dense webbing structure on back provides safe support
- Ribbed surfaces provides extra traction even under wet and raining conditions
- No bolting down required

SKU	Material	Height	Width	Depth	Weight	Load Capacity
EDGERAMP102	Rubber	102mm	900mm	610mm	27kg	20 Tonne

## Portable Plastic Disability Access Ramp

- Designed for wheelchair access, these Entrance Ramps provides a smooth transition between elevated surfaces
- Portable and ideal for wheelchairs and hand trolleys wanting to gain temporary access to elevated areas and suitable for any workplace, care facilities, public events, sporting carnivals and use around the home
- Plastic portable types can also be bolted down, standard fixings provided

SKU	Material	Height	Width	Length	Weight	Load Capacity
WCRAMP	Plastic	102mm	1300mm	700mm	11kg	300kg
KERBRAMPDDA	HDPE with Rubber Edging	110mm	1280mm	760mm	10kg	350kg

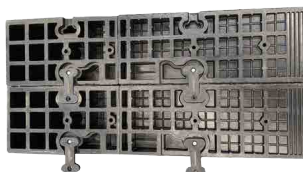

## Container Access Ramp

Load Capacity

- Allow access into standard shipping containers
- Modular design for quick and easy installation by one person using supplied bone connectors to link modules together to form the complete ramp.
- Easily put together no fixings required. 8 Modules form 2200mm Width
- Made from recycled rubber.

SKU	Material	Height	Width	Depth	Weight	Load Capacity
CONRAMP	Rubber	160mm	Per Module: 275mm Total: 2200mm	1250mm	210kg	20 Tonne

## Polyrib Entrance Matting

Top selling ribbed commercial mat that provides good performance at a value price

- Effectively removes dirt and moisture from footwear
- Ribbed construction traps dirt and moisture in recessed channels
- Durable polypropylene needle punch fibre, vinyl back and borders
- Slip resistant vinyl backing with 25mm borders
- Stain and fade resistant
- Suitable for offices, shopping centres, educational facilities etc.
- Indoor use only, easy to clean

SKU	Colour	Border	Width	Length
500PB6090	Black	25mm	900mm	600mm
500PB69015		25mm	900mm	1500mm

## Entrymaster Classic Matting

- General entrance mat, ideal for high traffic areas
- Excellent dirt and water retention, raised pattern will not flatten
- Cleated back minimises movement on most surfaces especially carpet
- Moulded rubber edge is tear, curl and damage resistant
- Easily cleaned by sweeping, vacuuming or hosing
- Durable polypropylene will not fade, rot or stain, dries quickly
- Anti-static, safe for use in sensitive areas. Rating: 1.2KV.
- Passes flammability standards DOCF-70

SKU	Colour	Width	Length
200ENT9015	Black	900mm	1500mm
200ENT1824		1800mm	2400mm
200ENT12LM		1200mm	Custom Length

## Comfort Master Matting

Top selling ribbed commercial mat that provides good performance at a value price.

- Suitable for both wet & dry areas
- Moulded gel foam, impervious to all acid and alkali based cleaning chemicals including bleach, chlorine as well as petroleum solvents, oils and animal fats
- Conforms to workplace manual handling issues (less than half the weight of all other rubber mats the same size)
- Anti-trip beveled edges
- Suitable for work places, education institutions, industrial applications, restaurants eating establishments, sports facilities etc

SKU	Colour	Thickness	Width	Length
COMFMAST900	Black	17mm	900mm	Custom Length

## Mats

### Gym Mat Tile Square

Gym Mat tiles are primarily used for floor protection in gym and indoor fitness settings, can be easily put together to cover a large area.

- Anti-skid and slip resistance
- Non-flammable, impact absorption
- Durable and hard wearing, sound deadening, anti-vibration
- Made from SBR Safety Recycled Rubber Tiles
- Beveled edge on all sides

SKU	Colour	Thickness	Width	Length
GYMTILERUBB	Black	15mm	1000mm	1000mm

## Mats

### YOU BEAUTE Ute Mat

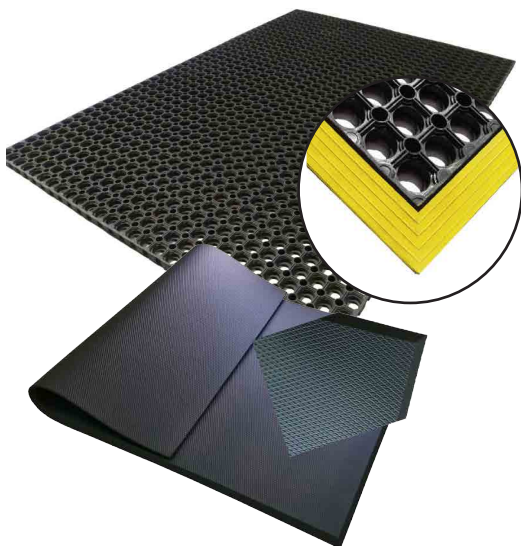

Protect your cargo and the deck of your ute with the You Beaute Ute Mat.

- Non slip rubber surface stops cargo slipping around on the tray
- Reduces impact and noise
- Made from 100% natural rubber
- 1.83m wide to suit standard ute trays, can be easily cut with a knife
- Can also be used for boats, workshops or home gyms

SKU	Colour	Thickness	Width	Length
UTEMATH	Black	10mm	1830mm	Custom

## Mats

### Custom Size Mats

Custom made to order products are Sold in EXACT metres continuous length

We offer custom length mats, see table below

- Engineers Mat: with Black or Yellow Border, or No Border, custom size
- Comfort Master custom length only

SKU	Type	Colour	Width	Length
ENGMATBLCUST	Engineers Mat	Black No Border	1000mm	Custom
ENGMATBLKUST		Black with Black Border	Custom	Custom
ENGMATYLWCUST		Yellow Border	Custom	Custom
COMFMAST900	Comfort Master	Black with Black Border	900mm	Custom
COMFMAST1200			1200mm	Custom
COMFMAST1800			1800mm	Custom

## 'Peel & Stick' Foam Impact Protection Strip

- Designed to prevent and cushion potential impact
- To warn of protruding corners, edges, vulnerable pipes and protects many other areas such as walls, vehicles, and machines.
- Made of high grade flexible age resistant polyurethane foam, can be easily cut to required length, or use them in a row to form longer length.
- UV resistant hi-vis safety black and yellow stripes
- Self adhesive backing for quick DIY installation.
- Come in a range of profiles to suit your application

SKU	Colour	Material	Dimensions	Profile
IMPPROS1	Yellow / Black Safety Stripes	Polyurethane Foam	40mm Dia. x 1000mm L Adhesive Push Fit Gap Size: 20mm x 8mm	
IMPPROS2	Yellow / Black Safety Stripes	Polyurethane Foam	40mm Dia. x 1000mm L Adhesive Push Fit Gap Size: 20mm x 20mm at 90 Degrees	
IMPPROS3	Yellow / Black Safety Stripes	Polyurethane Foam	37mm x 40mm x 1000mm L	
IMPPROS5	Yellow / Black Safety Stripes	Polyurethane Foam	45mm x 45mm at 90 Degrees x 1000mm L	
IMPPROS9	Yellow / Black Safety Stripes	Polyurethane Foam	40mm x 400mm x 1000mm L Adhesive Push Fit Gap Size: 20mm x 40mm Triangular Cut	
IMPPROS10	Yellow / Black Safety Stripes	Polyurethane Foam	100mm W x 20mm Thick x 1500mm L	
IMPPROS11	Yellow / Black Safety Stripes	Polyurethane Foam	60mm W x 20mm Thick x 1000mm L	

## Rubber Impact Protection Strip with Yellow Reflective Chevron Pattern

- Rubber Impact Protectors are used to prevent or lessen vehicles impact, to protect wall or machinery surfaces, to cover sharp corners, and to protect wall surfaces
- Perfect for car park spaces, garages, columns and walls, rubber is durable and these yellow reflective strips act as a safety warning
- Can stand heavy traffic and can take minor bumps and scratches
- Easy installation, can be easily fixed or glued to surfaces

SKU	Colour	Size	Thickness
WALLP800	Black Rubber with Yellow Reflective Chevron Pattern	22mm x 800mm	10mm
CRNPROTCT		90mm x 90mm x 800mm	7mm

## Wall Bumper Guard Heavy Duty Rubber

- Heavy duty all weather rubber construction
- 1 Metre length, use multiple lengths to form desired length
- Suitable for indoor / outdoor applications
- Reflective Band adds safety at night / or in dimly lit environments
- Reduces damage to vehicles upon impact
- Great for the warehouse, shop, car park or garage
- Easy installation, fixings provided

SKU	Colour	Size	Fixings
WBUMP1M	Black Rubber with Yellow Reflective Band	150mm x 1000mm x 50mm	3 x Fixing Holes Fixings Provided

## Docking Bumper

- Designed for loading docks to absorb impacts from reversing trucks without causing damage to structures or vehicles
- Can be used singularly or multiple ones together to form longer length
- Made from heavy duty rubber, durable and extremely hard wearing
- Easy installation, standard fixings provided

SKU	Material	Size	Fixings
DOCBUMP330	Fibre Reinforced Prime Rubber Containing Nylon and Polyester	250mm (W) x 102mm (H) x 330mm (L)	2 x Fixings
DOCBUMP1M		200mm x 200mm x 1000mm (L)	3 x Fixings

## Racking Guard Strap On Bumpers

- Prevent rack and shelving damage from forklifts and pallet trucks
- Made from hard wearing High Density Polyethylene (HDPE)
- Nylon velcro straps x 2 per racking guard, easy strap ons
- Install or stack them to the desired height
- Sold individually

SKU	Colour	Size
RACBUMP83	Yellow with Black Straps	135mm (Depth) x 135mm (W) x 450mm (H)

## Column Protector

- Protects vehicles and columns from damage by absorbing impacts
- Made from hard wearing High Density Polyethylene (HDPE)
- 3 x nylon velcro straps per column protector, easy to strap on and take off
- Suit round or square column up to 250mm x 250mm wide
- Lightweight, easy to transport
- Rust proof and all weather proof, can be used indoor or outdoor

SKU	Colour	Size	Weight
COLPRO250	Yellow with Black Straps	Inner: 250mm x 250mm Outer: 610mm Dia. x 900mm Height	8.5kg (combined)

## Racking Guard

- Designed for asset protection in warehouses
- Galvanised steel, safety yellow
- Surface mount, easy installation
- Complies to AS 4084-12

SKU	Colour	Size
RACKG15530	Galvanised Steel Powder Coated Yellow	150mm (Depth) x 155mm W x 400mm H

## Down Pipe Protector

- Australian Made down pipe protector
- Protect your downpipes from vehicle impact or damage
- Easy Installation, standard fixings included 6pcs x M10 60mm screws

SKU	Colour	Size	Thickness	Lip
DOWNPRO150	Galvanised Steel Silver	150mm x 150mm x 1200mm H	2mm	50mm

## Impact Protection

## Guard Rail Beams

- Manufactured using HA350 2.5mm material
- Hot Dipped Galvanised steel, complies to AS 4680:2006
- Suitable for outdoor roadways, warehouses and factories
- 9mm dia. mounting holes

## Impact Protection

## Guard Rail - Bolts

- Fixings to suit Safety Xpress guard rail system

SKU	Type	Base Plate	Dimensions
GRAILMHB50	Mushroom Bolt	Galvanised Steel	50mm x 16mm
GRAILMHB50PC		Powder coated Safety Yellow	50mm x 16mm
GRAILSB32	Splice Bolt	Galvanised Steel	32mm x 16mm
GRAILSB32Y		Powder coated Safety Yellow	32mm x 16mm
GRAILTRUBOLT	True Bolt	Galvanised Steel	110mm x 20mm
GRAILTBOLT		Galvanised Steel	125mm x 20mm
GRAILHEX	Hex Bolt	Galvanised Steel	35mm x 16mm

## Guard Rail Posts with Base Plate

Impact Protection

- C Post with base plate for Guardrail Systems
- Hot Dipped Galvanised steel, comply to AS 4680:2006
- Manufactured out of HA250 6mm material
- 750mm is VicRoads compliant
- 1200mm is double punched suitable for installing 2 guard rail beams
- Custom Height post is available between 700mm - 1200mm height

SKU	Base Plate	Height	Dimensions	Weight
GRAIL700MP	300mm x 300mm square	700mm	178mm Wide with 76mm returns	17kg
GRAIL750MP		750mm		18kg
GRAIL1200MP		1200mm		26kg

## Guard Rail Posts In Ground

Impact Protection

- In Ground C Post without base plate for Safety Xpress guardrail systems
- Hot Dipped Galvanised steel, comply to AS 4680:2006
- Manufactured out of HA250 6mm material

SKU	Height	Post Dimensions	Weight
GRPOST13	1320mm	178mm Wide with 76mm returns	19kg
GRPOST18	1800mm		26kg
GRPOST21	2100mm		30kg
GRPOST24	2400mm		34kg

## Right Angle Bend Internal

Impact Protection

- The 90 degree bend offers a method of changing direction of the guardrail run, making it easy to protect the corner of building etc.
- 2.5mm material thickness
- Galvanised to AS 4680:2006

SKU	Colour	Length	Width	Height	Weight
GRAILRABI	Galvanised Steel	700mm	700mm	750mm	11kg
GRAILRABIPC	Powder Coated Safety Yellow	700mm	700mm	750mm	11kg

## Right Angle Bend External

Impact Protection

- The corner section offers a method of changing direction of the guardrail run, making it easy to protect the corner of building or other important structures
- 2.5mm material thickness
- Galvanised to AS 4680:2006

SKU	Colour	Length	Width	Height	Weight
GRAILRAB	Galvanised Steel	700mm	700mm	400mm	11kg
GRAILRABPC	Powder coated Safety Yellow	700mm	700mm	400mm	11kg

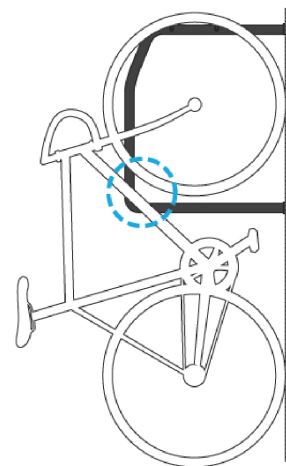

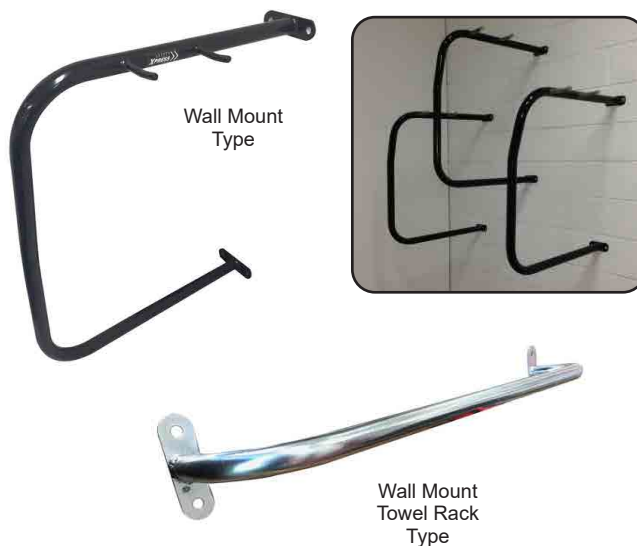

## Bike Storage Solutions - Wall Mount Types

- Ideal for apartment blocks, multi-level car parks basements, small offices and small garages to increase storage space
- Solid steel construction, galvanised steel / powder coated
- Wall Mount Bike Racks can be easily fixed to the wall to hang a bicycle vertically without causing any damage to the bike
- Multiple wall mount bike racks can be installed along each other to maximise space use
- Suitable for indoor or outdoor use

SKU	Type	Height	Length	Depth	Material
TBIKE900	Towel Type	150mm	900mm	150mm	Zinc Coated Steel
HANGBR	Folding Type	650mm	700mm	730mm	Galvanised Steel
WMBIKERACK	Fixed Wall Mount	700mm	600mm	120mm	Galvanised Steel

Note: HANGBR is suitable for bike tyre no bigger than 28inch

## Bike Rack - 5 Parker

- Perfect for anywhere that needs a surface mounted bike parking solution for multiple bikes such as schools, libraries, universities, shopping centres, sporting facilities, and other public areas
- Easy installation, tubes clips together and mount to surface

SKU	Type	Height	Length	Depth	Material
TBIKE900	Surface Mount	360mm	1800mm	380mm	Galvanised Steel

## Bike Racks

### Surface Mount Stainless Steel Hoops

- Available galvanised steel, 304 or 316 grade stainless steel
- Perfect for bike storage in places like schools, shopping centres and car parks
- Complies with Australian standard AS 2890.3:2015

SKU	Material	Diameter	Height	Width
BHOOPGALSM	Galvanised Steel	Tube: Φ48 x 3mm Thickness	800mm	800mm
BHOOPSSSM	304 Grade Stainless Steel	Base Plate: Φ150 x 8mm Thickness	800mm	800mm
BHOOPSSSM316	316 Grade Stainless Steel	6 Mounting Holes per hoop	800mm	800mm

## Bike Racks

### In Ground Stainless Steel Hoops

- Available in 304 or 316 grade stainless steel
- Perfect for bike storage in places like schools, shopping centres, car parks
- Install into new concrete by inserting the anchor rods provided or core drilled and set in existing concrete without anchor rods.

SKU	Material	O.D	Height	Width
BHOOPSSIG	304 Grade Stainless Steel	Tube: Φ48 x 3mm Thickness	1100mm (800mm above ground, 300mm below ground)	800mm
BHOOPSSIG316	316 Grade Stainless Steel	Anchor rod diameter 10mm x length:98mm	1100mm (800mm above ground, 300mm below ground)	800mm

## Holding Rail

### Bike Path Grab Rail & U Bar Hand Rail

- Bike path grab rails are beneficial for both cyclists and pedestrians
- Bike path grab rails are galvanised steel powder coated yellow with red/White Reflective band, visible at night or in dimly lit areas
- U-Bar hand rail can be used as a barrier and to divert traffic

SKU	Type	O.D	Height	Width
GRAIL750	In-Ground	Tube: 48mm Dia. x 3mm Thickness	1200mm (900mm above ground, 300mm below ground)	750mm
GRAIL1200	In-Ground		1300mm (1000mm above ground, 300mm below ground)	1200mm
UBD100SMG	Surface Mount		1040mm	1000mm

## EZYRAIL Hand Rail System

- No welding required !!
- Suits Dia. 48mm O/D (40 NB)
- Easy assembly using an impact drill / hex key
- Hot dipped galvanised cast iron
- Strong and sturdy, all weather proof
- Ensure pedestrian safety in a range of settings
- Suitable for: car parks, warehouses, factories, disability access, shopping centres, foot bridges, roof railings, pathways etc.
- Build to desired height and length
- Individual components or pre-assembled stanchions can be purchased for easy self assembly
- Custom design / custom colour available

### In House Manufacturing

Our manufacturing department fabricate all handrail systems on site, we can design and cut to your required length.

### EZYRAIL DDA Assist Range

- Complies with the requirement of DDA Act
- Complies to AS1428.1-2009 / Equality Act 2010
- No welding required, simple and effective joiner / clamp / connect system forms smooth and flush joints
- Suits Diameter 48mm O/D (40 NB)

- Internally expanding fittings and saddle type fittings require no riveting or drilling
- Steps and ramps can be easily accommodated
- Fast and easy to install using impact drill or a hex key
- Can be powder coated to any colour
- For assistance and special design please contact us

EZY747	DDA Assist Expanding Internal Swivel Bracket		 Short / Long Tee
EZY748	DDA Assist Saddle Internal Swivel Bracket		 Fit Into Short / Long Tee or Elbows
EZY751	DDA Assist Swivel Saddle		 Swivel Adjust to required angle
EZY725	DDA Assist Expanding Elbow		 Expands and holds hand rails 90°
EZY326	DDA Assist Internal Swivel Elbow		 90° - 180°

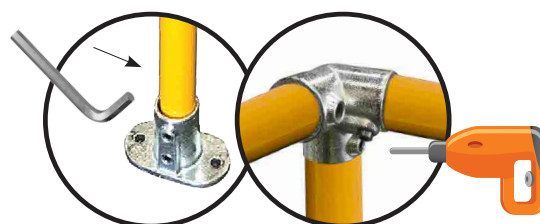

### EZYRAIL Self Assembly Guide

- No welding required!!
- Easy to assemble using a hex key, or impact drill
- We have individual components you can purchase or pre-assembled stanchions ready for installation
- Meet the Australian and New Zealand standard **AS 1657.2018** and **NZS 1657.1992** when installed correctly
- Versatile suitable for multiple applications
- Modular, relocatable and reconfigurable
- Can be installed at any angle, on slopes or flat surface.
- Custom design available please contact us for a quote

**12 MONTHS**  
WARRANTY

Ezyrail Modular Trolley Bay system is designed for shopping trolley storage in shopping centre car parks and comes in a range of sizes and designs, all ready for DIY installation in kit form.

Comes in Single, Double and Triple width: with / without bottom rails, with / without signs, and Back to back option available

Four design options to choose from:

- Surface Mount with Bottom Rail
- Below Ground with Bottom Rail
- Surface Mount without Bottom Rail
- Below Ground without Bottom Rail

Custom design available, contact us today to discuss your requirements.

## Single Width Trolley Bays

SKU	Description	Bottom Rail	Height	Width	Length	Dia.
TBAYS-BG	Single Width In-Ground	N/A	800mm above ground + 150mm below ground	900mm	4000mm	40mm
TBAYS-SM	Single Width Surface Mount	N/A	800mm		4000mm	
TBAYS2R-BG	Single Width In-Ground	With Bottom Rail	800mm above ground + 150mm below ground		4000mm	
TBAYS2R-SM	Single Width Surface Mount	With Bottom Rail	800mm		4000mm	
TBAYSB2B-BG	Single Width Back to Back In-Ground	N/A	800mm above ground + 150mm below ground		8000mm	
TBAYSB2B-SM	Single Width Back to Back Surface Mount	N/A	800mm		8000mm	
TBAYS2B2B-BG	Single Width Back to Back In-Ground	With Bottom Rail	800mm above ground + 150mm below ground		8000mm	
TBAYS2B2B-SM	Single Width Back to Back Surface Mount	With Bottom Rail	800mm		8000mm	

## Double Width Trolley Bays

SKU	Description	Bottom Rail	Height	Width	Length	Dia.
TBAYD-BG	Double Width In-Ground	N/A	800mm above ground + 150mm below ground	1800mm	4000mm	40mm
TBAYD-SM	Double Width Surface Mount	N/A	800mm		4000mm	
TBAYD2R-BG	Double Width In-Ground	With Bottom Rail	800mm above ground + 150mm below ground		4000mm	
TBAYD2R-SM	Double Width Surface Mount	With Bottom Rail	800mm		4000mm	
TBAYDB2B-BG	Double Width Back to Back In-Ground	N/A	800mm above ground + 150mm below ground		8000mm	
TBAYDB2B-SM	Double Width Back to Back Surface Mount	N/A	800mm		8000mm	
TBAYDB2B2-BG	Double Width Back to Back In-Ground	With Bottom Rail	800mm above ground + 150mm below ground		8000mm	
TBAYDB2B2-SM	Double Width Back to Back Surface Mount	With Bottom Rail	800mm		8000mm	

## Triple Width Trolley Bays

SKU	Description	Bottom Rail	Height	Width	Length	Dia.
TBAYT-BG	Triple Width In-Ground	N/A	800mm above ground + 150mm below ground	2700mm	4000mm	40mm
TBAYT-SM	Triple Width Surface Mount	N/A	800mm			
TBAYT2R-BG	Triple Width In-Ground	With Bottom Rail	800mm above ground + 150mm below ground			
TBAYT2R-SM	Triple Width Surface Mount	With Bottom Rail	800mm

MIXPADL	Post Length: 600mm Post Diameter 10mm	Spiral Diameter 103mm Spiral Length 110mm

## Line Marking Supplies

## Line Marking Stencils

- Designed and manufactured to Australian Standards and is ideal for use in car parks both undercover and outdoors.
- Place your stencil flat on painted surface to be marked and spray your paint over the stencil
- We suggest a bit of masking tape to hold the stencil in place and to make sure the edges are crisp and clean. Remove the stencil carefully in one lift to void smudging and the hard work is done!
- Slightly rigid, durable material that can be reused and has a high gloss finish for easy paint removal (either wipe off wet, or peel off dry)
- Custom design available, contact us for a quote

SKU	Description	Size	Material
STENDIS	Disabled Parking Stencil	800mm x 800mm x 2mm Thick	Polypropylene Plastic
STENUMSET300	Numbering Stencils 0-9	300mm Height	
STENALPHSET300	Stencil A-Z Set	300mm Height
