

STAIR NOSING RANGE

To ensure your stair nosing order is correct, please review the following details carefully:

Pricing:

Listed per lineal metre (1000mm) without countersunk holes and screws. To include countersunk holes and screws, add \$1.50 + GST per lineal metre. The price will automatically update when you select this option.

- How to Calculate: Measure each required length (in mm), sum them up, and round UP to the nearest lineal metre. This total will be your chargeable amount.

Example:

- 10 stairs, each 850mm long:
- $850\text{mm} \times 10 = 8500\text{mm} = 8.5$ lineal metres
- You'll be charged for 9 lineal metres due to rounding up

Countersunk Holes & Screws:

- With holes: We pre-drill and supply screws. You'll need to install the nosing and cover the fixings with the anti-slip insert.
- Without holes: You receive the product as one piece, ready for adhesive installation (e.g., using Selleys Hold Up). Indicate if you want the aluminium and insert supplied separately.
- Cut Lengths: Please specify exact lengths in the comments box during checkout. Failure to do so may delay your order.

Maximum Lengths:

The longest stair nosing available for online orders is in 2-meter cuts. For lengths exceeding this, please contact us for a custom quote at 1300 049 246 or sales@safetyxpress.com.au

For any technical questions, feel free to contact us.

We require written measurements to ensure accuracy. Submit your details via email, the contact us form, or in the comments box at checkout.

Please note: Custom orders, including stair nosing, cannot be returned due to a change of mind.
