Width: 125mm

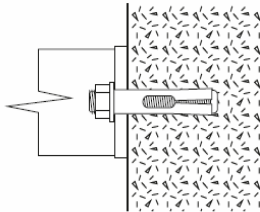

12 Month Manufacturer's Warranty

Installation Information

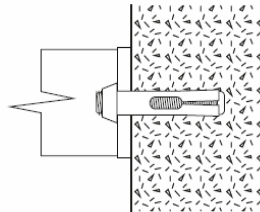

The surfaces which the bike racks could be installed into/onto are many and varied. For this reason, we have provided a variety of illustrations which could apply to your installation. We recommend you obtain expert advice when drilling into or altering wall surfaces. Ensure the wall or frame to which you fix your bike rack is able to hold the weight of the bike/s before installing.

Securing Guide

Fix to a wall using 4x fasteners or Shear Nuts

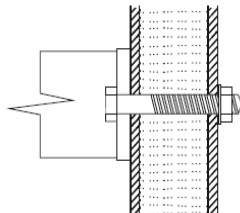

Shown with M8 x 40mm fastener

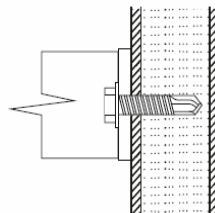

Shown with M8 x 40mm Shear Nuts

Fix to a frame using 4x bolts or Tek Screws

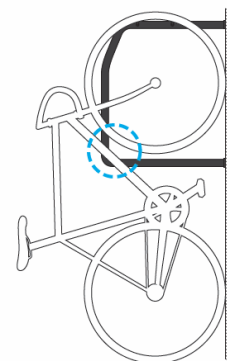

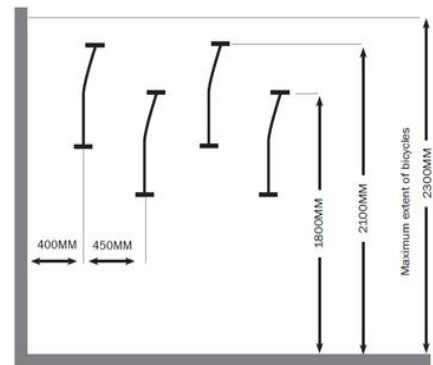

Shown with M10 x 60mm Bolt, Washer & Nut

Shown with Tek Screw

Recommended Spacing

For a seamless installation, ensure your bike rack is installed on a flat surface.

Safety Xpress recommends you put the safety of yourself and others first when installing your bike rack. Please be mindful of using and wearing the correct safety gear.
