Heavy Duty Steel Speed Hump 5mm Gauge

Build to Desired Length

eg. 3 m = 3 modules

Recessed  
Fixing Holes

End Caps Sold Separately

## Installation Guide

- Work out total length required first
- 1pcs of mid = 1m, for example, if you need to cover total of 5m, you will need 5pcs of mid sections
- End caps are sold separately.
- No need to specify colours, we supply our speed hump and end caps in alternating black and yellows
- Recessed fixing holes, standard fixings supplied
- 5mm gauge metal, heavy duty, durable, hard wearing, 50 Tonne load capacity at 30km/hr or less
- We can supply you with the correct 14mm drill bit for installing your Speed Humps.
